per client / month · 45–60 day close

INDUSTRY 01 — START HERE

Financial Services

Banks, investment firms, FinTech, and asset managers in the GCC are in an arms race for executive thought leadership. They have the budget. They have the mandate. They have zero internal production capability.

AVG MONTHLY RETAINER	SALES CYCLE	DECISION MAKER	MARKET SIZE GCC
$8,500	**4–6 wks**	**CMO**	**$2.4B**
per banking client	CMO to signed contract	or Head of Comms	annual content spend

WHY THIS INDUSTRY, WHY NOW

Every major GCC bank is under pressure to humanise its brand. After decades of corporate anonymity, their CMOs are being told: **"Get our CEO and leadership team on video. Build thought leadership. Compete for talent and clients with content."** They have the budget (SAR 500K–2M per year for content alone) and the urgency. But they have no idea how to execute. A bank's marketing team knows brand guidelines, not production pipelines. That gap is your entry point.

The pitch is not "podcast production." The pitch is **"executive thought leadership infrastructure."** You are not selling them a show — you are selling them a system that makes their C-suite the most visible banking voices in the GCC.

THE POSITIONING

"We turn your executives into the most recognised thought leaders in GCC finance — without taking a single hour of your internal team's time."

This framing works because it addresses two fears simultaneously: **the fear of being invisible** (competitors are doing this, where are we?) and **the fear of internal burden** (who is going to run this? We don't have a podcast producer). You eliminate both objections before they're raised.

TARGET COMPANIES — GCC FINANCIAL SERVICES

Emirates NBD

Target: CMO / Head of Group Communications

Largest bank by assets in the UAE. Active in thought leadership push. CEO Hesham Abdulla Al Qassim is a public figure — a podcast series positions him as the voice of UAE banking.

Saudi National Bank (SNB)

Target: Chief Marketing Officer

Largest bank in Saudi and Arab world post-NCB/Samba merger. Massive brand-building budget. Actively investing in content to establish new combined identity.

First Abu Dhabi Bank (FAB)

Target: Group Head of Brand & Marketing

UAE's largest bank. Global ambitions. Positioning as the "bank of the UAE economy." Executive thought leadership is central to their 2025–2026 brand strategy.

Al Rajhi Bank

Target: Head of Corporate Communications, KSA

Saudi's largest Islamic bank. 100M+ customers. Shifting to digital-first communications. High appetite for Arabic-language content targeting Saudi entrepreneurs and young professionals.

Mashreq Bank

Target: CMO — very LinkedIn active

Most digitally progressive UAE bank. CEO Abdul Aziz Al Ghurair is already public-facing. Strong internal appetite for innovative communications. Fast decision cycles.

Tabby / Tamara / Postpay (FinTech)

Target: Head of Marketing / Growth

GCC Buy-Now-Pay-Later companies are raising hundreds of millions and competing for brand awareness. Young, fast-moving, open to content partnerships. Shorter sales cycle than traditional banks.

LINKEDIN OUTREACH — FINANCIAL SERVICES (COPY-PASTE)

```
Hi [Name],

I run Dubai Podcast Studio — Business Bay's largest podcast production network
(7 studios, 200+ episodes produced).

I've been watching how [Bank Name]'s communications have evolved, and I think
there's an untapped opportunity: your leadership team has genuine expertise that
your clients, prospects and talent pipeline would pay attention to — if it was
packaged correctly.

We've built a pipeline that takes a 45-minute executive recording session and
turns it into: mastered audio, branded 4K video, 5 social Reels, full
transcript, show notes, and distribution-ready content — all within 24 hours,
with zero internal effort from your team.

I'd like to produce one episode for [Bank Name] completely free — no commitment,
no pitch on the call. You see the output, you decide if it fits.
```

`15 minutes to set up. Would you be open to it?`

Financial Services Executive Thought Leadership Package

4 episodes/month · Mastered audio + 4K video + 5 Reels + full content suite · Bilingual Arabic/English · 24-hour turnaround · CEO/C-suite positioning report quarterly

$8,500

per month

WEEK 1-2

Outreach

→ **50 LinkedIn connections/day** — GCC bank CMOs, comms heads

→ **Post 3 LinkedIn articles** — "Why GCC banks are losing the content war"

→ **Offer free pilot** to first 5 respondents

WEEK 3-4

Pilot Delivery

→ **Run 3-5 free pilots** — 24-hour delivery, blow them away

→ **Follow up with case** — "Here's what we delivered, here's the ROI"

→ **Convert 2-3 to paid** retainers

MONTH 2+

Scale

→ **Referrals within banking** — CMOs talk to each other

→ **Annual contract offer:** 10% discount for 12-month commitment

→ **Add Tier 2:** SAR 15K/month (8 eps + strategy sessions)

WATCH OUT

Banks have compliance teams. Before producing any content, have the client sign a simple **"Content Approval" clause** in your contract — all episodes are approved by their legal/compliance team before publishing. This removes your liability and builds trust. Frame it as: "We build in a 48-hour compliance review window before any episode goes live." Banks will love this. It is the difference between a rejected pitch and a signed contract.

INDUSTRY 02 — HIGHEST SINGLE CONTRACT

Corporate L&D

Learning & Development departments at large Gulf corporates have multi-million-dirham training budgets and a mandate to upskill marketing and communications teams in digital content. Your workshop is already this product.

PER PROGRAMME	SALES CYCLE	DECISION MAKER	REPEAT RATE
$18K	**4–8 wks**	**CLO / HR**	**High**
2-day intensive, 15–20 pax	to vendor approval + PO	Chief Learning Officer	quarterly cohorts common

WHY THIS INDUSTRY, WHY NOW

Every major corporate in Saudi and UAE is running a **"digital transformation of communications"** initiative. Their HR and L&D teams are being told to teach employees how to produce content, build personal brands, and communicate on video. The problem: no one on the L&D team knows how to do this. They buy external programmes. **Your 2-day "Corporate Content Mastery" workshop is exactly what they are buying — they just don't know you exist yet.** The Saudi Aramco L&D budget alone exceeds $200M per year. Getting on their approved vendor list is the goal.

THE POSITIONING

"We certify your communications and marketing teams in professional content production — the same system used by Dubai's top podcast studios."

The word **"certify"** is critical for the L&D sale. L&D buyers need to justify budget with measurable outcomes — a certificate or credential is that justification. Create a "DPS Certified Content Producer" credential and include it in every workshop. It costs you nothing but dramatically increases the perceived value and the ease of internal approval.

TARGET COMPANIES — CORPORATE L&D

Saudi Aramco

Target: VP Learning & Development / Corporate Communications

SABIC (Saudi Basic Industries)

Target: Head of HR / Learning Innovation

The world's most profitable company. L&D budget exceeds $200M/year. Communications team runs in-house media. A quarterly "Content Mastery" programme for their comms team is a straightforward sell.

50,000+ employees. Subsidiary of Aramco. Active L&D investment. Content production training for their global comms teams is a clear need — they produce content in 40+ countries.

McKinsey & Company — Gulf

Target: Knowledge & Communications Lead

Consulting firms produce enormous volumes of thought leadership. McKinsey Gulf has a strong mandate to produce Arabic-language insights content. They buy external training for communications skills regularly.

Deloitte Middle East

Target: Chief Learning Officer

7,000+ employees across the Middle East. Existing podcast and video content programme. Buying a "Content Production Certification" for their marketing and BD teams is aligned with their 2026 brand investment.

STC (Saudi Telecom Company)

Target: Head of Brand / L&D

Saudi's largest telecom and a major digital media player. They are building an internal content creation capability and buying external expertise to accelerate it.

ADNOC Group

Target: SVP Communications & L&D

Abu Dhabi National Oil Company. Massive communications operation. Buys training programmes for its 60,000+ workforce. Entry through a "Content Production for Energy Sector" specialised programme.

LINKEDIN OUTREACH — L&D (COPY-PASTE)

```
Hi [Name],

I run Dubai Podcast Studio and we've just launched a corporate training programme: "Content Production Certification" — a 2-day intensive that teaches marketing and communications teams how to produce professional podcast and video content in-house.

The programme has been built around the same pipeline used to produce 200+ episodes in our Dubai studios — adapted specifically for corporate communications teams who need to produce content regularly without outsourcing every piece.

Outcome: every participant leaves with a produced episode and a "DPS Certified Content Producer" credential.

Given what [Company] is doing in digital communications, I think this could fill a real gap in your L&D calendar for H2 2026.
```

```
Would a 20-minute call make sense this week?
```

Corporate Content Production Certification Programme

2-day on-site intensive · Max 20 participants · "DPS Certified Content Producer" credential · Custom branded workbook · Post-workshop 30-day support · Full equipment provided

$18,000

per cohort (flat fee)

THE QUARTERLY COHORT MODEL

Once you've delivered one programme inside a large corporate, the L&D team runs you as a quarterly cohort — new employees joining the communications or marketing function go through the programme every quarter. **One initial sale at $18,000 becomes $72,000/year from that single client.** Saudi Aramco, SABIC, and ADNOC have new hires joining every month. They will run this 4 times per year without hesitation.

INDUSTRY 03 — HIGHEST LIFETIME VALUE

Government & Semi-Government

Gulf governments are the single largest content spenders in the Arab world. One contract. Multi-year. Impossible to lose once embedded. The sales cycle is long — but the prize is transformational.

AVG MONTHLY CONTRACT

$35K

once in the ecosystem

SALES CYCLE

3-6 mo

procurement to first payment

CONTRACT DURATION

2-5 yr

standard government term

DECISION PATH

Comms

then procurement, then CEO

HOW GOVERNMENT BUYS — THE CRITICAL INSIGHT

Government entities do not buy "podcast production." They buy **"Communications Infrastructure"** or **"Digital Media Strategy and Execution."** When you pitch a government client, never say the word "podcast" first. Say: **"We build digital communications infrastructure that positions [Entity] as the leading voice in its sector."** Podcast and video are the delivery mechanism — not the product. The product is institutional reputation. This single framing change is the difference between a $2K order and a $35K/month contract.

THE POSITIONING

"We build the digital communications infrastructure that makes your institution the defining voice of its sector — in Arabic and English."

For Vision 2030 entities specifically, add: **"Aligned with the Vision 2030 Communications Framework and Saudi National Media Strategy."** Connecting your service to their existing strategic mandate shortens the internal approval process by weeks. You are not a vendor. You are a **Vision 2030 implementation partner.**

PRIORITY TARGETS — GOVERNMENT & SEMI-GOVERNMENT

NEOM — Media & Communications Division

Saudi Tourism Authority

Target: VP Digital & Content / CMO

Target: Chief Communications Officer

$500B megacity. A global communications operation with a mandate to produce Arabic and English content at scale. Budget is effectively unlimited. Their content strategy is a multi-year programme.

Nine-figure annual marketing budget. Active podcast and video content production in multiple languages. Seeking a production partner in the region who can work at their speed and quality standard.

Misk Foundation

Target: Head of Media & Communications

Mohammed bin Salman's youth and innovation foundation. Media is at the core of their mandate. Young leadership team, open to new approaches. Decision-makers are LinkedIn-active and accessible.

Mubadala Investment Company (Abu Dhabi)

Target: Head of Corporate Communications

$280B sovereign wealth fund. Active thought leadership communications programme. Their annual "Mubadala Perspectives" content series is expanding to podcasting in 2026.

Dubai Media Office / Dubai Government

Target: Director of Media Strategy

Closest to home. DPS is a Dubai entity — pitching Dubai Government as a production partner is a natural fit. They have an annual content programme and are actively seeking local specialist partners.

Diriyah Company

Target: Head of Brand & Communications

Developing the historic Diriyah district as a $20B cultural destination. Content documenting the journey, interviewing architects, historians, cultural figures — a natural podcast/documentary series.

GOVERNMENT ENTRY — APPROACH DIFFERS FROM CORPORATE (READ THIS)

```
Do not cold-pitch government entities on LinkedIn.

The government entry strategy requires a warm introduction. The path:

1. Identify 2–3 people in your existing network who have worked with or for the target entity.
   LinkedIn → search "[Entity Name] alumni" or "[Entity Name] former employee"

2. Ask for an introduction to the current Head of Communications.
   Message: "I'm exploring a partnership with [Entity] on their content programme — do you know anyone there I should speak with?"

3. Once introduced: request a 30-minute "discovery call" — not a pitch.
   On the call, ask about their communications challenges, listen, then position DPS as a solution to what they described.

4. Submit a proposal aligned to their existing strategic framework (Vision 2030, UAE Centennial 2071, etc.)
```

```
The proposal language: "Digital Communications Infrastructure" — not "podcast production."
```

Government Digital Communications Infrastructure Package

8–12 episodes/month · Full production suite · Bilingual Arabic/English · Quarterly communications strategy session · Annual communications audit · Dedicated account team · SLA: 24-hour delivery

$35,000

per month · annual contract

INDUSTRY 04 — FASTEST CASH

Real Estate Development

Property developers launch new projects every quarter. Each launch is a budget event. They need brand-quality video content, developer interviews, investor briefings, and lifestyle documentation. They need it fast, and they pay well for it.

PER PROJECT	SALES CYCLE	DECISION MAKER	FREQUENCY
$8,000	**1-3 wks**	**CMO**	**4–8×**
average per launch package	fastest of all 5 industries	or Head of Marketing	launches per developer/year

WHY THIS IS THE FASTEST CASH PLAY

Real estate marketers operate on project deadlines, not quarterly budgets. When a developer is 6 weeks from launching a new tower, **they will spend SAR 300,000 on a launch campaign and approve your SAR 30,000 content package in 48 hours** without a procurement process — because the project launch date is fixed and non-negotiable. This is the fastest sales cycle of all 5 industries. One phone call on a Monday can be a signed contract by Wednesday and a shoot by Friday.

THE POSITIONING

"Your new project deserves a media moment — not a brochure. We turn your launch into a content series investors actually watch."

Real estate developers are obsessed with their product but terrible at content. Their default is photography + a PDF brochure. You are selling them **the content equivalent of a film premiere:** a CEO interview, a construction documentary series, a lifestyle video shoot, an investor podcast episode. All delivered at 4K quality. All distributed across YouTube, LinkedIn, Instagram. For a SAR 800M tower launch, your package is a rounding error in the marketing budget.

TARGET COMPANIES — REAL ESTATE

EMAAR Properties

Target: VP Marketing / Head of Digital Content

ROSHN Group (Saudi)

Target: CMO / Head of Marketing

Dubai's largest developer. Launches 8–12 new projects per year. Active content production programme. A regular production partnership would generate 8–12 projects × $8,000 = $64K–$96K annually.

Saudi PIF-backed developer building massive residential communities. Enormous content budget. Vision 2030 mandate to document the transformation of Saudi housing. Every development is a story.

Aldar Properties (Abu Dhabi)

Target: Chief Marketing Officer

Abu Dhabi's largest developer. Active in Dubai and Saudi now. Producing documentary-style content about their mega-projects. A natural fit for DPS's video production pipeline.

DAMAC Properties

Target: Head of Brand & Marketing

High-luxury developer. Hussain Sajwani is a very public CEO. A CEO podcast series + project launch content is a natural product. They already produce some content in-house but quality is inconsistent.

Dar Al Arkan (Saudi)

Target: Marketing Director

One of Saudi's largest developers. International portfolio. Launching multiple projects in 2026. Content needs for their international investor audience (English + Arabic) align perfectly with DPS capabilities.

Boutique Developers (10–20 targets)

Target: Founder / CEO directly

Smaller developers ($50M–$500M projects) are the fastest to close — CEO makes the decision same day. Target 10–20 boutique developers in Dubai and Saudi. Close rate is 30–40% with the right pitch.

REAL ESTATE OUTREACH — TRIGGER-BASED APPROACH (MOST EFFECTIVE)

Monitor new project announcements. React within 72 hours of a launch announcement.

Message template (sent within 72 hours of new project news):

"Hi [Name] — I saw the announcement about *[Project Name]*. Congratulations on the launch.

I run Dubai Podcast Studio, and we specialise in launch content packages for real estate developers — CEO interview, project documentary, investor briefing episode, plus 5 branded social Reels — all delivered within 5 working days.

The developers we've worked with find that a proper video content launch generates 3–5× more investor enquiry response than photography alone.

Given the timing of *[Project Name]*, I wanted to reach out before your launch campaign is locked. Would a 20-minute call this week make sense?"

Real Estate Launch Content Package

CEO/Founder interview (4K, 20 min) · Project documentary (3–5 min, 4K) · 5 branded social Reels · Investor briefing audio podcast · Full photo-to-video repurposing · 5 social posts · YouTube upload + SEO

$8,000

per project launch

THE RETAINER PLAY — AFTER THE FIRST PROJECT

The project package is the foot in the door. After delivering one excellent launch package, propose a **monthly retainer: SAR 12,000/month for "Ongoing Development Storytelling"** — monthly construction progress videos, resident testimonial series, sales milestone content. **Developers who see results from launch content almost always say yes to the retainer.** One developer client becomes $3,000–$5,000/month in ongoing passive revenue on top of project fees.

INDUSTRY 05 — HIGHEST GROWTH RATE

Healthcare & Pharma

Saudi healthcare is being privatised for the first time. Hospitals and clinics are now competing for patients. Pharma companies are building marketing departments from scratch. The content gap in Arabic healthcare is enormous.

AVG MONTHLY RETAINER	SALES CYCLE	MARKET GROWTH	DECISION MAKER
$5,500	**4-6 wks**	**+24%**	**CMO**
per healthcare client	to first invoice	Saudi health content demand YoY	or Medical Director

THE PRIVATISATION OPPORTUNITY

Under Vision 2030, Saudi Arabia is privatising its healthcare sector — converting government hospitals into competing private entities for the first time. This means hospital groups that previously had no marketing budget suddenly have a mandate to compete for patients, recruit doctors, and build brand reputation. **They have zero internal content production capability and are actively seeking external specialists.** The DPS pipeline — doctor interview series, patient story videos, hospital reputation content — is plug-and-play for this market.

THE POSITIONING

"We turn your doctors into the most trusted medical voices in the region — building patient trust before they ever walk through your door."

Healthcare buyers respond to **patient trust and doctor credibility** as the primary value proposition — not production quality. Lead with: "Every episode puts one of your specialists in front of 50,000 potential patients who are searching for exactly the condition they treat." **This is a patient acquisition tool, not a content service.** Frame it as ROI on patient volume, not creative production.

TARGET COMPANIES — HEALTHCARE & PHARMA

Dr. Sulaiman Al Habib Medical Group

Target: Chief Marketing Officer / Head of Digital

Saudi German Hospital Group

Target: Marketing Director

Saudi's largest private hospital group (40+ hospitals). Recently IPO'd — under heavy pressure to build brand differentiation. Active in social media but content quality is inconsistent. Perfect fit.

16 hospitals across MENA. Already producing some podcast content but without a professional pipeline. A production partnership upgrade would significantly raise their content quality and output.

Jamjoom Pharma

Target: Head of Marketing / Medical Affairs

Saudi Arabia's largest pharmaceutical manufacturer. Expanding into consumer marketing. Doctor education podcasts and patient awareness video series align with their new consumer strategy.

Cleveland Clinic Abu Dhabi

Target: Director of Marketing & Communications

US-quality hospital in Abu Dhabi competing against Dubai hospitals for GCC patients. English-first content strategy. Their CMO is LinkedIn-active and understands content marketing deeply.

SPIMACO (Saudi Pharmaceutical)

Target: Corporate Communications Manager

Major Saudi pharma company. Shifting from B2B-only to consumer communications post-Vision 2030. Patient education content in Arabic is their primary gap.

Mediclinic Middle East

Target: Head of Marketing

Pan-GCC private hospital network. Competing in UAE and Saudi. Doctor-led podcast series ("Ask Our Specialists") is a natural product. Decision-maker is accessible and content-aware.

HEALTHCARE OUTREACH — COMPLIANCE-FIRST APPROACH (COPY-PASTE)

Hi [Name],

I run Dubai Podcast Studio — we specialise in professional content production for the Gulf market.

I've been watching how *[Hospital/Company]* is building its brand presence and I see a significant opportunity in doctor-led content. In the GCC, patients trust doctors as their primary information source — and the hospitals that put their specialists on video and audio are seeing measurable increases in new patient enquiries.

We built a production pipeline specifically for healthcare:
– Record a 30-min specialist interview
– We deliver: mastered audio + 4K video + 5 social Reels + transcript + show notes
– All content reviewed by your Medical Affairs team before publishing
– 24-hour turnaround

I'd like to offer *[Hospital]* a **free pilot episode** with one of your specialists. No obligation. You see the quality and patient response first.

Would this be worth 15 minutes this week?

Healthcare Specialist Thought Leadership Package

4 specialist episodes/month · Mastered audio + 4K video + 5 Reels · Full Arabic/English transcript · Show notes + patient blog post · Medical Affairs review window built in · YouTube SEO + distribution included

$5,500

per month

HEALTHCARE-SPECIFIC WATCH OUT

Healthcare content is regulated in both UAE (DOH/DHA) and Saudi (MOH). **Always include a "Medical Affairs Review" step in your SOP for healthcare clients** — all content must be approved by their medical team before publishing. This is non-negotiable for them, and it protects you. Frame it as a feature, not a constraint: "We build a dedicated 48-hour medical review window into every episode workflow." This single sentence closes more healthcare deals than any portfolio example.

REVENUE SUMMARY

The full picture

If you pursue all 5 industries simultaneously with the outreach volumes described above, here is the conservative combined revenue projection at Month 6.

INDUSTRY	CLIENTS (MONTH 6)	AVG MONTHLY VALUE	MONTHLY REVENUE	PRIORITY
Financial Services	5 retainers	$8,500	$42,500	Start Now
Corporate L&D	3 programmes/qtr	$18,000 each	$18,000	Start Now
Government	1 contract	$35,000	$35,000	Build Pipeline
Real Estate	3 projects + 2 retainers	$8K project / $4K retainer	$32,000	Start Now
Healthcare & Pharma	4 retainers	$5,500	$22,000	Month 2+
DPS Core (Dubai + Saudi Bureau)	**Running in parallel**	—	**$28,000**	Already Built

CONSERVATIVE MONTH 6 COMBINED REVENUE

$177,500

Across all 5 industries + DPS core operations · Achievable with your current profile, pipeline, and team · Zero new capital investment required

Don't pursue all 5 at once.

The $177K figure is a Month 6 projection if you run all channels in parallel with a full team. If you are starting from scratch — especially under a conflict scenario — here is the sequencing.

MONTH 1 — CASH FIRST

Real Estate + Financial Services

- → Fastest sales cycle
- → No compliance overhead
- → **Target: $20K minimum**
- → Real estate: 1 launch package + 2 retainers
- → Finance: 3 free pilots → 2 conversions

MONTH 2–3 — SCALE

L&D + Healthcare

- → First L&D workshop in Riyadh
- → 3–4 healthcare free pilots
- → **Target: $50K+ total**
- → Finance: now at 4–5 retainers
- → Real estate: 2–3 retainers locked

MONTH 4–6 — COMPOUND

Government Pipeline

- → Government sales cycle started Month 1
- → First government contract by Month 4–5
- → **One contract = $35K/month**
- → All other channels running
- → Team needs 1–2 new hires at this stage
