EXECUTIVE SUMMARY

Between **March 23 and May 14, 2025**, the studio outreach team contacted **937 clients** from the YallaPod database to assess how the **regional conflict** and the approaching **summer season** are impacting client presence and booking intent in Dubai. Of the **311 clients reached (33.2%)**, the vast majority — **236 (75.9%)** — confirmed they are currently in Dubai, a reassuring signal. However, **42 confirmed they are abroad**, and **152 phones were off** — a combined signal that the summer exodus has already begun. This report translates those findings into a concrete June–August marketing strategy and budget allocation.

1. OUTREACH PERFORMANCE

Key Findings:

- **311 clients answered (33.2%)** out of 937 total records — strong for a cold-recall campaign.
- **152 phones were off (16.2%)** — likely clients who have temporarily or permanently left the region.
- **268 no-answers (28.6%)** — recoverable via WhatsApp/SMS follow-up.
- **206 records not yet contacted (22.0%)** — a significant pool that should be prioritised in the next outreach wave.
- Of those reached: **75.9% in Dubai, 13.5% currently abroad.**

2. GEOGRAPHIC DISPERSION OF ABSENT CLIENTS

Key Findings:

- **UK is the #1 destination** for absent clients — strong British expat segment travelling home for summer.
- **France is #2** — significant Francophone clientele (France + potential North African diaspora).
- **Abu Dhabi and Bahrain** indicate regional displacement — these clients can return to Dubai quickly and are the easiest to re-activate.
- **Germany, Spain, Russia, Egypt, Bali, Singapore, Morocco, Panama, Texas** all represented — a genuinely global client base.

3. OUTREACH VOLUME OVER TIME

Key Findings:

- **March 25** was the single highest-volume day (110 contacts) — the campaign launched aggressively right after the regional conflict escalation.
- **April 14** was the second-largest day (68 contacts) — a systematic full-database sweep.
- **Late April and May show declining volume** — the reachable pool is being exhausted. A fresh outreach wave on the untouched pool is now the priority.
- **206 records (22%) have never been contacted** — these should be the next outreach batch.

4. ABSENT CLIENT RETURN TIMELINE SEGMENTATION

Key Findings:

- **5 imminent returnees (<2 weeks)** — contact NOW with a booking offer; highest conversion potential.
- **4 mid-term (1–3 months)** — target with June/July advance-booking campaigns.
- **2 long-term (3+ months)** — low summer priority; nurture with email/content for an autumn re-engagement campaign.
- **16 gave no certain date** — re-ping in 30 days; situation may have changed.
- **1 confirmed they are no longer Dubai-based** — archive or target with remote/virtual recording services.

5. COMPETITOR STUDIO MENTIONS

Metro Podcast Studio	1
Dimension	1
Procast Studio	1
Podster	1
Upod	1

Five competitor studios were explicitly named by clients: **Dimension, Metro Podcast Studio, Podster, Procast Studio, and Upod**. These studios are top-of-mind for your clients — understanding their pricing, equipment, and positioning is essential for retaining and winning back bookings.

6. RISK ASSESSMENT — WAR IMPACT + SUMMER EFFECT

Risk Factor	Severity	Evidence	Recommended Action
Regional conflict / client displacement	MEDIUM	152 phones off (16.2%)	Retain Dubai clients with loyalty offers; avoid over-investing in perm
Summer seasonal decline	HIGH	42 clients confirmed outside Dubai	Shift budget to retention + 'coming back' campaigns targeting UK &
Large untouched contact pool	MEDIUM	206 records not yet called	Prioritise next outreach wave on this untouched segment immediate
Competitor studio awareness	LOW-MED	5 studios named by clients	Benchmark vs. Dimension, Podster, Metro, Procast, Upod
Long-term absent clients	LOW	2 returning in 3+ months	Autumn re-engagement sequence; launch email nurture in Aug

7. MARKETING STRATEGY & BUDGET — JUNE 2025

PRIORITY CAMPAIGNS

#	Campaign / Action	Target Segment	Priority	Channel
