DUBAI PODCAST STUDIO — NOVEMBER 2026 · BATCH 2

4 MORE. THE MONTH IS COVERED.

Four angles that haven't run yet. Each one targets a different reason people haven't booked. Together with the 5 already running, this is a full-funnel November campaign — 9 ads, every psychological trigger covered, every audience temperature addressed.

4 NEW REELS · 9:16 | 15–22 SECONDS EACH | WHATSAPP CTA · VIDEO-ONLY | LAUNCH: NOVEMBER 3–30

ALREADY IN FLIGHT — DO NOT DUPLICATE THESE ANGLES

- ✓ **Social proof volume** — "47 Dubai brands" (numbers hook)
- ✓ **Competitor FOMO** — "Your competitor booked last week"
- ✓ **Month deadline** — "Record in November, live in 2026"
- ✓ **Q4 countdown** — "62 days left in 2026"
- ✓ **Objection: camera fear** — "I don't know what to say"

AD D — MATH REEL · COLD · "ONE SESSION = 30 DAYS OF CONTENT"

D

"TWO HOURS. THIRTY DAYS OF CONTENT. THE MATH."

The content multiplication argument. Most people think about video production as a one-off cost for one piece of content. This ad reframes the math entirely — 2 hours in the studio produces

enough content to post every single day for a month. When the numbers land, the objection of "it's not worth my time" disappears instantly.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Reel 9:16 · 22s	Cold · Broad UAE · 28–58	Leads → WhatsApp	AED 110/day

0:00–0:03

HOOK — THE NUMBER FIRST, NO CONTEXT

Hold up two fingers or show "2 HRS" as text on screen. Blunt, zero intro. This is the pattern interrupt.

> **"Two hours in our studio. That's all it takes. Let me show you what comes out."**

0:03–0:15

THE BREAKDOWN — LIST IT FAST, STACK IT HIGH

Fast pace. Each item on screen as you say it. This is the moment — land each number with a beat.

> **"One full video episode — that's 4 weeks of weekly content. Seven short-form clips for Reels — that's 7 posts. Five 60-second cuts — 5 more. An audiogram. A highlight reel. You walk out with more than 30 pieces of content from a single two-hour session."**

0:15–0:19

THE CLOSE — LET THE MATH DO THE WORK

Slower now. Calm. One sentence.

> **"One session. One month of content. Done."**

0:19–0:22

CTA

Direct. Practical.

> **"Message us on WhatsApp and we'll book you in this week."**

ON-SCREEN TEXT OVERLAYS

- 0:00 — "2 hours in the studio →"
- 0:03 — Stack on screen: "1 full episode / 7 Reels clips / 5 × 60s cuts / audiogram / highlight reel"
- 0:15 — "= 30+ pieces of content"
- 0:19 — End card: "Dubai Podcast Studio · WhatsApp →"

EXECUTION NOTES

- → **The stacked list is the visual** — as each deliverable is said, show it appearing on screen as text. This is a simple CapCut or DaVinci edit: text appearing on beat. Takes 20 minutes to produce. The visual stack landing one by one is what makes this ad feel different from the others.
- → **Adjust the numbers to DPS reality** — "30 pieces of content" is the claim. Only use it if it's accurate. If a standard DPS session delivers 15 pieces, say 15. Specificity beats inflation every time.
- → **Universal cold audience** — this ad works without any prior knowledge of DPS. The hook is just math. Anyone who creates content — or wants to — will stop for it.

AD E — SELF-ID FILTER REEL · COLD · "STOP SCROLLING IF…"

E

"STOP SCROLLING IF YOU'RE A DUBAI BUSINESS OWNER…"

The self-identification hook — one of the highest-performing cold formats on Meta right now because the algorithm reads who stops and optimises toward that exact audience. No spray and pray. The viewer pre-qualifies themselves by staying. Andromeda then finds more people exactly like them.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Reel 9:16 · 18s	Cold · Broad UAE · 28–55	Leads → WhatsApp	AED 100/day

0:00–0:04

HOOK — THE FILTER. SAY IT LIKE A COMMAND, NOT A QUESTION.

Hold up a hand toward camera. Confident. This is the pattern interrupt — the word "stop" triggers a pause reflex. Pause naturally after the first sentence.

> **"Stop scrolling if you're a Dubai business owner who's been meaning to start creating video content — but hasn't actually done it yet."**

0:04–0:12

THE BRIDGE — WHY THEY HAVEN'T DONE IT YET (AND WHY THAT ENDS TODAY)

Conversational. You're finishing their own sentence for them.

> **"You haven't done it because you don't have a team, you don't have equipment, and you don't have time to figure it out. We are that team. We have that equipment. You bring yourself and your knowledge. We handle everything else — recording, editing, all the cuts, delivered in 24 hours."**

0:12–0:18

CTA — COMPLETE THE LOOP

Smooth, no hard sell. They already know this is for them.

> **"This is Dubai Podcast Studio. If this is you, message us on WhatsApp. We have slots open this week."**

ON-SCREEN TEXT OVERLAYS

- **0:00 — "STOP SCROLLING IF →"**
- **0:01 — "you're a Dubai business owner who hasn't started video yet"**
- **0:04 — "No team. No equipment. No time to figure it out."**
- **0:08 — "We are that team."**
- **0:12 — End card: "Dubai Podcast Studio · WhatsApp →"**

EXECUTION NOTES

→ **The algorithm learns from who stops** — "Stop scrolling if…" is not just a hook device. Every person who pauses on this ad tells Meta exactly who your buyer is. After 200–300 stops, Andromeda has a precise model and starts finding more of them automatically. This is why the format works so well cold.

→ **Three reasons they haven't started** — "no team, no equipment, no time" covers the three universal blockers. If DPS research shows a fourth common one specific to Dubai, add it. But don't exceed four — the list needs to feel complete, not exhaustive.

→ **Variant** — swap "business owner" for the specific verticals DPS serves most: "Stop scrolling if you're a Dubai real estate agent / financial advisor / consultant who's been meaning to start video." One re-film of the first line, three targeted versions.

AD F — COST REALITY REEL · COLD + WARM · "WHAT A VIDEO TEAM ACTUALLY COSTS"

F

"DO YOU KNOW WHAT A DUBAI VIDEO TEAM COSTS?"

The price anchor. Most DPS prospects have no idea what professional video production costs in Dubai — so when they see DPS pricing, they don't know if it's cheap or expensive. This ad sets the anchor. Once they've heard the real market rate, DPS feels like a no-brainer. No discounts. Just context.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Reel 9:16 · 20s	Cold + Warm · UAE	Leads → WhatsApp	AED 100/day

0:00–0:04

HOOK — THE QUESTION THAT EARNS THE WATCH

Direct question to camera. Slightly rhetorical — you already know the answer. Pause after the question.

> **"Do you know what it actually costs to build a proper video content team in Dubai?"**

0:04–0:13

THE ANCHOR — REAL NUMBERS, NO EXAGGERATION NEEDED

Measured. Let each number breathe for a beat.

> **"A videographer: AED 3,000 to 5,000 per day. An editor: AED 8,000 a month. A sound engineer, a studio rental, equipment. You're looking at AED 15,000 to 25,000 a month before you've published a single video."**

0:13–0:17

THE ALTERNATIVE — DPS, NO PRICE MENTIONED. LET THEM ASK.

Shift tone. This is the relief.

> **"Or you come to Dubai Podcast Studio. Two hours. Full production. Everything delivered. No team to manage. No monthly overhead."**

0:17–0:20

CTA — MAKE THEM ASK THE NEXT QUESTION

Slight smile. Easy close.

> **"WhatsApp us and ask what a session costs. You'll be surprised."**

ON-SCREEN TEXT OVERLAYS

- **0:04 — "Videographer: AED 3,000–5,000/day"**
- **0:07 — "Editor: AED 8,000/month"**
- **0:09 — "Studio + Equipment + Sound"**
- **0:11 — "= AED 15,000–25,000/month"**
- **0:13 — "Or: Dubai Podcast Studio"**
- **0:17 — End card: "Dubai Podcast Studio · WhatsApp →"**

EXECUTION NOTES

→ **Never say the DPS price in this ad** — the entire mechanism is anchoring. If you say "and we only charge AED X", you turn this into a price comparison ad and lose control. The "WhatsApp us and ask — you'll be surprised" close is intentional: curiosity converts. Let the WhatsApp conversation do the price reveal.

→ **Verify the Dubai market numbers** — AED 3,000–5,000/day for a videographer and AED 8,000/month for an editor are real Dubai market rates as of late 2026. If DPS has more precise data from its network, use those exact numbers.

→ **Works cold and warm** — cold audiences are shocked by the market rate (creates instant value perception for DPS). Warm audiences who already know DPS are now re-anchored — "I didn't realise how much I'd save."

AD G — DECEMBER WARNING REEL · WARM · "DECEMBER IS ALREADY TOO LATE"

G

"DON'T WAIT FOR DECEMBER. HERE'S WHY."

The sharpest urgency play of the campaign — and the most honest. December in Dubai means holidays, clients travelling, and decision-makers mentally checked out until January. This ad doesn't fabricate pressure. It explains why the window is actually November, not December. The most powerful close for warm leads sitting on the fence right now.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Reel 9:16 · 22s	Warm retargeting · 45d	Leads → WhatsApp	AED 80/day

0:00–0:03 HOOK — THE COUNTERINTUITIVE OPENER

Lean in, slightly conspiratorial. Like you're giving them information most people don't have.

> **"If you're planning to book your studio session in December — don't."**

0:03–0:14 THE REAL REASON — HONEST, DUBAI-SPECIFIC, NO MANUFACTURED FEAR

Measured explanation. This should feel like advice from someone who knows the market.

> **"In Dubai, December means half your network is travelling, the other half is at events every night, and nobody is making decisions until after the new year. Content you publish in December gets buried. Content you publish in November — when people are still at their desks, still focused — that's content that actually reaches someone."**

0:14–0:19 THE WINDOW — MAKE IT CONCRETE

Slightly faster now. The practical close.

> **"We have slots open in November. Record now, publish while your audience is still paying attention, start 2027 ahead."**

0:19–0:22 CTA

Direct. One action.

> **"WhatsApp us today and let's lock in November."**

ON-SCREEN TEXT OVERLAYS

- **0:00 — "Don't wait for December."**
- **0:03 — "December in Dubai = half your network is gone"**
- **0:08 — "Content published in December gets buried"**
- **0:14 — "November slots open now"**
- **0:19 — End card: "Dubai Podcast Studio · WhatsApp →"**

EXECUTION NOTES

→ **Warm audience only** — this ad assumes the viewer already knows what DPS does. Cold audiences need the offer explained before they can act on the urgency. Run this exclusively against retargeting lists: website visitors 45 days, video viewers 50%+, Instagram profile visitors 30 days.

→ **The Dubai December insight is real** — this isn't fabricated scarcity. Dubai genuinely slows down in December as residents travel and the business calendar winds down. The ad is honest and that's why it works — viewers who know Dubai will nod in recognition.

→ **This ad expires Dec 1** — run it November 3–30 only. Do not run it in December. On Dec 1, retire it or swap: "January in Dubai is when the market wakes back up — and the brands with content already live will own it."

→ **The most important close of the campaign** — this is the ad that converts the warm leads who've been watching DPS content for weeks and keep saying "next month." It takes away next month as an option.
