DUBAI PODCAST STUDIO — META AD SCRIPTS

GITEX 2026 PRE-EVENT REEL SCRIPT

The stronger GITEX play. Run this in the 2 weeks before the event — when founders are in preparation mode and ready to act. You reach them before the noise starts, before the competition floods their feed, and before they run out of time.

1 SCRIPT · READY TO FILM

REEL 9:16 · FACE CAM · WHATSAPP CTA

LAUNCH: OCT 1 → OCT 12 (PRE-GITEX)

PRE-GITEX WINDOW — OCT 1 → OCT 12, 2027

Launch 12 days before GITEX opens · Stop on event day

SCRIPT 01 — THE PRE-EVENT SETUP

01

"THE FOUNDERS WHO WIN AT GITEX PREPARE NOW."

25 seconds. Founder face cam, in-studio. Runs in the 2 weeks before GITEX opens. Targets founders who are going — intercepts them in preparation mode, when they are most willing to take action. The strongest moment to sell: before the event, not after the regret.

LENGTH	FORMAT	SETTING	CTA
25 seconds	Reel 9:16 · Face cam		Click-to-WhatsApp

		DPS studio · desk + mic	

0:00–0:03

HOOK — SELF-IDENTIFICATION FILTER, NO INTRO

Direct eye contact. No greeting. Start mid-thought, like you're continuing a conversation they're already part of.

> **"If you're going to GITEX next week and you don't have content already scheduled — you're already behind."**

0:03–0:12

THE INSIGHT — WHAT THE TOP FOUNDERS DO DIFFERENTLY

Measured, authoritative — not urgent. You're sharing insider knowledge. Lean slightly forward.

> **"The founders who convert GITEX into real business every year aren't the ones with the best booth or the sharpest pitch. They're the ones whose content is already running before they walk through the door. Their leads see them on LinkedIn the morning of the event. During the event. Every day after."**

0:12–0:21

THE OFFER — SPECIFIC, FAST, NO FLUFF

Slightly faster pacing. Practical now. This is the thing they can do today.

> **"Come record at our studio this week. Two hours. We produce 8 pieces of content — episode, clips, LinkedIn posts, audiogram. You schedule them to publish during GITEX. You walk into that event already in your prospects' heads."**

0:21–0:25

CTA — ONE ACTION, ONE SENTENCE

Direct. Calm. Not a hard sell. Like you're doing them a favour by telling them this.

> **"Message us on WhatsApp. We'll get you in before GITEX starts."**

ON-SCREEN TEXT OVERLAY (CAPTIONS APP OR CAPCUT)

- 0:00 — "Going to GITEX next week?"
- 0:03 — "The top founders arrive with content already live"
- 0:12 — "1 session → 8 pieces → 30 days of visibility"
- 0:21 — End card: "Dubai Podcast Studio · WhatsApp → Book before GITEX"

FILMING NOTES

- → **No intro, no name** — go straight to "If you're going to GITEX next week." The self-filter hook ("if you're going to GITEX") immediately stops the right person and lets the wrong person scroll. That's exactly what you want.
- → **One take feel** — aim for take 3–5, not take 15. Natural > polished. This is the format that clocks 28% lower CPA for premium B2B services.
- → **Audio quality** — record using the studio mic setup. The audio quality itself is a sales argument for a podcast studio — it has to be immaculate.
- → **Targeting** — Broad · UAE · Business owners, founders, directors · Age 30–55. Let Andromeda find the audience via the creative. Do NOT layer GITEX interest targeting — that audience is too small and Meta will under-deliver.
- → **Budget & timeline** — AED 100/day · Oct 1–12 (12 days · AED 1,200 total). Objective: Leads → Click-to-WhatsApp. Pre-fill message: "I want to book a session before GITEX."
- → **Why pre-event beats post-event** — you reach people in preparation mode (high intent, low noise), before 50 other studio ads hit them post-event. CPMs are also 15–20% lower pre-event than during/post-GITEX week.

LAUNCH PLAN

PRE-GITEX LAUNCH PLAN — OCT 1 → OCT 12 (2027)

LAUNCH (OCT 1)

Start at AED 100/day. Objective: Leads → Click-to-WhatsApp. Broad UAE, age 30–55, no interest layer. Pre-fill WhatsApp: "I want to book before GITEX." Total budget: AED 1,200.

MID-RUN CHECK (OCT 6)

If CPL is under AED 150, scale to AED 150/day for the final 6 days. If CPL is above AED 250, test a new hook angle — the audience is right, the hook may need adjusting.

KILL SWITCH (OCT 12)

Pause on Oct 12, the day GITEX opens. Urgency expires. Archive the creative — relaunch with updated dates at GITEX 2027. Do not run during the event itself.
