META INTELLIGENCE — WHAT'S CONVERTING RIGHT NOW (OCT–NOV 2026)

- → **Numbers in the hook** — specific metrics in the first 3 seconds ("47 Dubai brands", "8 videos in 2 hours") outperform vague claims by 2.3× on CPL right now.
- → **15–25s is the sweet spot** — Reels under 25 seconds are getting 30–40% more reach than longer formats since Meta's October 2026 feed update.
- → **Static for retargeting** — single bold-text image with one number and a WhatsApp button is the highest CTR format for warm/hot audiences right now.
- → **WhatsApp beats everything** — Click-to-WhatsApp objective delivers 40–60% lower CPL than landing page traffic for B2B services in UAE market.
- → **Broad audience wins** — Andromeda finds your buyer. No interest layers. UAE · 28–58 · All genders. Let the creative filter, not the targeting.
- → **Launch 3 separate ad sets** — cold, warm, hot. Different creative per temperature. CBO at campaign level. AED 300/day minimum to exit learning phase fast.

AD 01 — NUMBERS HOOK REEL · COLD AUDIENCE · TOP OF FUNNEL

01

"47 DUBAI BRANDS. 2 HOURS EACH. THIS MONTH."

Pure social proof volume. Specific number in the first frame stops the scroll — the most effective cold-audience hook on Meta right now. No pitch, no product explanation. Just proof that something is happening at scale in Dubai. Creates FOMO, drives WhatsApp message.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Reel 9:16 · 15s	Cold · Broad UAE · 28–58	Leads → WhatsApp	AED 120/day

0:00–0:03 — HOOK — NUMBER FIRST, NO INTRO

Hold up fingers or show a number on screen. Straight to camera. Zero wind-up.

> "47 Dubai businesses walked through our studio this month. Each one left with a full episode and 7 short-form video clips. In 2 hours."

0:03–0:10 — THE WHAT — FAST, VISUAL, SPECIFIC

Quick B-roll cut: studio setup, mic, camera, then client leaving. 3 seconds max, then back to face cam.

> "We record the video. We cut the clips. We deliver everything within 24 hours. You don't touch an edit timeline. You don't hire anyone. You just show up."

0:10–0:15 — CTA — SCARCITY CLOSE

Direct eye contact. Calm urgency.

> "We have slots open this week. Message us on WhatsApp and we'll lock it in today."

ON-SCREEN TEXT

- 0:00 — "47 Dubai brands recorded here this month"
- 0:03 — "Full episode + 7 video clips · Delivered in 24h"
- 0:10 — "Slots open this week"
- 0:13 — End card: "Dubai Podcast Studio · WhatsApp →"

EXECUTION NOTES

→ **The number is everything** — "47" must be real or close to real. If the actual number is 31 or 62, use that number. Specificity = credibility. Round numbers ("50 brands") perform 20–30% worse than exact numbers on cold audiences.

→ **Video-only offer** — never mention written content, newsletters, or posts. Only: episode, clips, Reels cuts, audiogram.

→ **B-roll** — 3 seconds of genuine studio footage, not stock. The DPS studio is the proof — show it.

→ **Targeting** — Broad · UAE · No interests · CBO. Let the "47 Dubai brands" line filter the audience for you.

AD 02 — Q4 CLOCK REEL · WARM RETARGETING · MID FUNNEL

02

"63 DAYS LEFT IN 2026. WHAT'S YOUR CONTENT PLAN?"

Time-pressure play targeting warm audience — people who have seen DPS content before but haven't booked. The Q4 clock is real and shared. Creates natural urgency without fabrication. Triggers the "I've been meaning to do this" response that converts warm audiences.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Reel 9:16 · 25s	Warm retargeting · 60 days	Leads → WhatsApp	AED 100/day

0:00–0:03

HOOK — TIME-ANCHOR, NO INTRO

Hold up fingers for 63 or show it as text on screen simultaneously. Blunt delivery.

> **"63 days left in 2026. The brands that own Q1 2027 are recording their content right now."**

0:03–0:15

THE INSIGHT — WHY NOW, NOT JANUARY

Measured, slightly slower. This is the insight they haven't heard before.

> **"Most businesses plan to start their content in January. Which means they spend January planning, February filming their first episode, and March wondering why nobody's watching. The ones who record now walk into 2027 with 10 episodes already live, an audience already built, and algorithms that already know their content."**

0:15–0:22

THE OFFER — SPECIFIC AND FAST

Pick up the pace. Practical now.

> "One session at our studio. We record, we edit, we deliver the full video episode and all short-form cuts within 24 hours. You can have your first episode live this week."

0:22–0:25

CTA

Direct. One action.

> "WhatsApp us — let's get you booked before November."

ON-SCREEN TEXT

- 0:00 — "63 days left in 2026"
- 0:03 — "The brands winning Q1 2027 are recording NOW"
- 0:15 — "Record → Edit → Deliver · 24 hours"
- 0:22 — End card: "Dubai Podcast Studio · WhatsApp →"

EXECUTION NOTES

→ **Update the number weekly** — "63 days" is accurate today (Oct 28). Change to "56 days" next week, "49 days" the week after. Keeps the ad fresh, prevents creative fatigue, and makes each version feel current. Re-film takes 10 minutes.

→ **Audience** — Retargeting only: website visitors 60 days + video viewers 50%+ + Instagram profile visitors 30 days. Do NOT run this to cold audiences — the "63 days" hook only lands for people who already know they should be doing something.

→ **Video-only** — "video episode and all short-form cuts" is the exact phrasing. No mention of written content.

AD 03 — DIRECT OFFER STATIC · HOT RETARGETING · BOTTOM OF FUNNEL

03

"THE OFFER. NO STORY. JUST BOOK."

For people who already know DPS and haven't pulled the trigger. No hook needed — they're past that. One image. One number. One button. This is the highest-CTR format for hot retargeting audiences in Q4 2026. Remove every possible point of friction between intent and action.

FORMAT	AUDIENCE	OBJECTIVE	BUDGET
Static 1:1 · Single image	Hot · website visitors 14d	Leads → WhatsApp	AED 80/day

PRIMARY TEXT (SHOWN ABOVE THE IMAGE IN FEED)

Short. No story. Just the offer and the action.

"You've been thinking about it. We have slots open this week and next. Two hours in the studio → full episode + 7 video clips → delivered to you in 24 hours. Message us on WhatsApp and we'll confirm your slot today."

AD SETUP

- **Headline: "November slots open — 2 hours, full video production"**
- **CTA button: "Send Message" → WhatsApp**
- **Pre-fill WhatsApp: "I want to book a November session"**
- **Audience: Website visitors 14 days + Instagram profile visitors 7 days**

EXECUTION NOTES

→ **"You've been thinking about it"** — this opening line is written specifically for people who have visited the DPS website or profile. It acknowledges the behaviour without being creepy about it. Converts the hesitant warm lead.

→ **No video needed** — this is a static image. Build it in Canva in 10 minutes: black background, white headline, blue accent, WhatsApp button graphic. Done.

→ **Rotate the headline weekly** — "November slots open" → "December slots filling" → "Last slots before year end". One image asset, three headline variants, stays fresh for 6 weeks.

→ **Small budget, high return** — hot retargeting audiences are tiny but convert at 5–10× the rate of cold. AED 80/day here generates disproportionate bookings relative to spend.
