MARINA IMMO DUBAI — YOUTUBE & MONETISATION STRATEGY

Dubai to Bali — The Blue Ocean Play

English Bali real estate YouTube is saturated. French Bali real estate YouTube is essentially empty. Here is the full content direction, differentiation strategy, and monetisation stack — built on the Gary Vee and Hormozi frameworks — for the only honest francophone investor channel at the intersection of two of the world's hottest property markets.

CHANNEL	LANGUAGE	PRIMARY AUDIENCE
Marina Immo Dubai	**French — the moat**	**French-speaking investors**

YEAR 1 REVENUE POTENTIAL	CAPITAL REQUIRED
€180,000–€420,000	**€0 — you already have the tools**

---

01 — CHANNEL ASSESSMENT

What the channel is and what it isn't

Based on research, Marina Immo Dubai is a French-language YouTube channel covering real estate investment in Dubai and — more recently — Bali. It has a podcast presence, an active Instagram (@marinaimmodubai), and runs regular YouTube Lives. The content is investment-focused, targeting French-speaking individuals looking to buy property outside France.

THE SINGLE BIGGEST ASSET YOU HAVEN'T FULLY EXPLOITED

The channel is in French. This is not a minor detail — **it is the entire competitive moat.** English-language Bali real estate YouTube has dozens of serious channels with hundreds of thousands of subscribers. French-language Bali real estate YouTube has virtually no serious competitor. You are sitting in a blue ocean while treating it like a red one. The entire strategy starts from this recognition.

THE RISK YOU ALREADY KNOW

80% of your revenue comes from Dubai. The YouTube channel mirrors this — it started as Dubai-first and Bali is recent. **This is the same concentration risk in content form.** The channel pivot to Bali is not just a content decision. It is a business survival decision. Diversify the channel before you need to.

THE DPS CONNECTION YOU'RE NOT USING

You run Dubai's most professional podcast production studio with a 24-hour content pipeline. Your own YouTube channel is — almost certainly — not benefiting from it. **The cobbler's children have no shoes.** You will fix this as part of this strategy. Every video you produce for Marina Immo goes through the DPS pipeline: 4K video, branded Reels, transcript, show notes, bilingual subtitles. Your production quality will be in the top 1% of all real estate YouTube worldwide.

02 — MARKET REALITY CHECK

The honest Bali market in 2026

Every developer and every other YouTube channel is selling the dream. Here is the data. Knowing this — and saying it publicly — is the entire differentiation strategy.

AREA	NET YIELD	MARKET STATUS	VERDICT
Canggu / Berawa	10–15%	**Oversupplied**	Saturated. Traffic crisis. High price sensitivity. "Easy money" phase over. Only exceptional properties perform.
Seminyak	8–12%	**Mature**	Established but over-developed. Entry prices high, yields compressed. Tourist-dependent, volatile.

Uluwatu / Bingin	12–17%	**Emerging Luxury**	Double-digit price growth. Ocean-view premium. Surf culture + luxury convergence. Buy now before infrastructure locks in pricing.
Ubud	8–12%	**Niche**	Wellness / retreat positioning. Long-stay renters. Lower yield but stable occupancy. Different buyer profile.
Pererenan / Seseh	10–14%	**Early Mover**	West of Canggu overflow. Lower entry price, growing demand. 2–3 year window before Canggu pricing follows.
North Bali / Amed	6–10%	**Speculative**	Emerging infrastructure. Lower current yields but strong capital appreciation potential. Higher risk, longer time horizon.

THE CRITICAL DISTINCTION NOBODY SAYS OUT LOUD

Developer brochures quote **gross yields of 15–20%.** The honest net yield — after OTA commissions (15–20%), property management (15–25%), maintenance, utilities, withholding tax, and vacancy — is **typically 6–12% depending on management quality.** The gap between projected and actual is where most French investors get burned. Being the channel that publishes this honestly makes you the most trusted voice in the French Bali real estate space — permanently.

THE LEGAL REALITY FRENCH INVESTORS DON'T UNDERSTAND

Foreigners cannot own freehold land in Indonesia. The two main structures — **PT PMA** (foreign-owned Indonesian company, access to freehold) and **Leasehold** (typically 25–30 years + extensions) — are each misunderstood by 90% of French buyers. The PT PMA requires minimum investment of IDR 10 billion (≈ €600,000) and ongoing compliance. Leasehold is misrepresented as "quasi-ownership" when it is not. **A clear French-language explainer of these structures would be the most-searched Bali real estate content in French on YouTube.**

03 — THE STRATEGIC ANSWER

Should you go full Bali?

THE VERDICT

Not "full Bali." Full honesty about Bali — in French. And never abandon Dubai.

Going "full Bali" makes you one of dozens of English Bali channels, now in French. That is a content category, not a brand. **The brand is: the only French-language investor who has lived Dubai, succeeded there, and is now applying that discipline and scepticism to Bali.** Dubai is your credibility. Bali is your growth story. The combination — that journey, documented honestly — is something no Bali-only channel can replicate.

THE POSITIONING STATEMENT

"L'unique chaîne francophone dirigée par quelqu'un qui a construit sa fortune à Dubaï — et qui vous montre maintenant, chiffres réels à l'appui, si Bali vaut vraiment le détour."

"The only French channel run by someone who built their wealth in Dubai — and who now shows you, with real numbers, whether Bali is actually worth it."

04 — THE CONTENT FRAMEWORK

Gary Vee meets Hormozi — applied to your channel

Two frameworks. One executes on content volume and authenticity. The other converts that audience into revenue. You need both — in the right order.

GARY VEE FRAMEWORK — THE CONTENT ENGINE

"Document, don't create. You're living the story. Film it."

You are literally in the middle of a transition from Dubai to Bali. The property visits, the developer meetings, the legal consultations, the mistakes, the surprises, the real yield numbers — that IS the content. **You don't need to manufacture anything.** You need a camera and the

courage to be honest on it.

The Gary Vee play: every trip to Bali generates 20+ pieces of content. Every developer visit = one long video + 5 Reels + 1 podcast episode. Every legal consultation = one explainer video. Every mistake = one "what I wish I knew" video. The DPS pipeline makes this frictionless — 35 minutes of editing work per episode, 8 deliverables out.

HORMOZI FRAMEWORK — THE OFFER STACK

"The content is the marketing. The offer is the business. Give away the secrets. Sell the implementation."

The YouTube channel generates zero revenue on its own at your current scale. AdSense is noise. The revenue comes from what the audience trusts you enough to buy.

Give away for free: The honest yield breakdowns. The legal structure explainers. The area comparisons. The developer red flags. Every piece of information that makes you the most trusted voice in the space.

Charge for: The implementation. The vetted developer list. The due diligence templates. The community. The investor trip. The "I'll find you the right property" sourcing service. Your time on a consultation call.

The math: 1,000 true fans × €300/year average spend = €300,000/year. You don't need millions of subscribers. You need the right 1,000 people who trust you completely.

05 — THE CONTENT ARSENAL

6 series that don't exist in French

These are not random video ideas. Each series fills a specific gap in the French-language Bali investment content landscape, targets a specific audience moment, and feeds directly into the monetisation stack.

SERIE 1 — THE ANCHOR SERIES

"J'ai quitté Dubaï pour Bali — voici la vérité 12 mois plus tard"

"I left Dubai for Bali — here's the truth 12 months later"

Why this works: It is a real story. It is the narrative that explains who you are and why you have credibility. It will be the most-watched video on the channel. Every new subscriber discovers it first. It anchors the entire brand: "This person has skin in the game. They are not promoting Bali — they are living it." Start with this video. Make it honest, personal, and vulnerable about both the good and the difficulties.

Viral Potential | Trust Builder | Channel Anchor

SERIE 2 — THE TRUTH SERIES (HORMOZI CORE)

"Le vrai rendement locatif à Bali : chiffres réels, pas les projections des agents"

"The real rental yield in Bali: actual figures, not agent projections"

Why this works: Nobody else is doing this honestly in French. Every other channel publishes developer-supplied yield projections (15–20% gross). You publish the actual net yield breakdowns (6–12%) with itemised cost deductions. This video will be shared by every French investor who has been burned or is about to be. It generates massive trust, massive shares, and massive inbound. Run this as a series: one video per area (Uluwatu reality, Canggu reality, Ubud reality).

Viral in Niche | Trust Anchor | SEO Gold

SERIE 3 — THE LEGAL EXPLAINER SERIES

"PT PMA vs Leasehold à Bali : ce que votre agent ne vous dira jamais"

"PT PMA vs Leasehold in Bali: what your agent will never tell you"

Why this works: This is the most-searched topic for French investors in Bali and there is no good French-language explanation anywhere. A clear, simple 15-minute breakdown of the two legal structures, their real costs, risks, and tax implications in French will be the top result on YouTube for this query for years. It also pre-qualifies your audience — people watching a legal explainer are serious buyers, not tourists. Extend the series: Indonesian taxes for French residents, inheritance rights in Bali, exit strategies.

Top SEO | Trust Builder | Lead Gen

SERIE 4 — THE COMPARISON SERIES

"Dubaï vs Bali : où investir 200 000€ en 2026 ? Analyse honnête"

"Dubai vs Bali: where to invest €200K in 2026? Honest analysis"

Why this works: You are uniquely qualified to make this comparison — you have lived and built in Dubai, and you are now invested in Bali. No other French channel has this dual perspective. This video targets the exact audience moment when a French investor is choosing between the two markets. Run the comparison series as a spreadsheet-driven analysis: entry price, net yield, capital appreciation, legal friction, tax implications, exit liquidity. The spreadsheet itself becomes a downloadable digital product.

Shareability | Direct Sales | High Intent Search

SERIE 5 — THE DEVELOPER REVIEW SERIES

"J'ai visité 10 promoteurs à Bali — voici ceux à éviter absolument"

"I visited 10 developers in Bali — here are the ones to absolutely avoid"

Why this works: Bali is full of developer scams, late deliveries, and misrepresented projects. A French-speaking investor who has personally visited, vetted, and reviewed developers — naming names — is performing a service that no other channel dares to. **This generates enormous trust and an enormous search footprint.** The positive reviews bring developer sponsorship enquiries. The vetted developer list becomes a paid product. Note: legal review required for naming developers negatively — frame as "here is what my due diligence found."

Controversy = Views | Credibility Peak | Sponsorship Bait

SERIE 6 — THE REAL-TIME DIARY (GARY VEE CORE)

"Mon investissement Bali — journal de bord en temps réel"

"My Bali investment — real-time diary"

Why this works: Document every step of a real investment you are making (or have made). Property selection, legal process, construction or renovation, first rental booking, first month's yield. Every episode is 10–20 minutes of real, unscripted content. The audience follows the journey and cannot leave because they want to know what happens next. The diary format creates habit-forming viewership — subscribers come back weekly. It also generates the most authentic social proof possible: you put your own money in.

Retention Driver | Skin in Game | Community Feeder

06 — THE MONETISATION STACK

Five tiers. Zero dishonesty.

Hormozi's core principle applied: only sell what genuinely helps your audience. Every tier below delivers real value. The stack only works if the free tier is so good that people feel obligated to pay for something.

TIER 0 — THE AUDIENCE MACHINE

Gratuit

builds the audience

YouTube + Podcast + Newsletter

The 6 video series above, distributed via DPS pipeline. Weekly newsletter (Substack or Beehiiv): "La Lettre de l'Investisseur — Bali & Dubaï". **One actionable market insight per week, 500 words.** This is the trust engine. Never monetise this directly — it is the funnel for everything below. Target: 5,000 newsletter subscribers within 6 months.

TIER 1 — DIGITAL PRODUCTS

"Guide Complet : Investir à Bali" + Toolkit

€97–197

one-time · passive revenue

Guide: €97 — 50-page PDF covering legal structures, area analysis, honest yield calculator, vetted service providers (lawyers, notaires, property managers). **Toolkit: €197** — Due diligence checklist, developer vetting template, PT PMA cost calculator, 5-year ROI spreadsheet. These are passive income. Create once, sell forever. At 50 sales/month: €5,000–€10,000/month recurring.

TIER 2 — COMMUNITY MEMBERSHIP

Club Investisseurs — Bali & Dubaï

€99

per month · recurring

€99/month or €890/year. Private community (WhatsApp or Circle): **weekly deal alerts** (properties you've vetted personally), monthly live Q&A, vetted developer and lawyer contact list, early access to investor trips, member-only ROI breakdowns from real investments. **Target: 200 members = €19,800/month recurring.** This is your most scalable and most loyal revenue stream. Build it slowly — quality over volume.

TIER 3 — THE INVESTOR TRIP (THE KILLER PRODUCT)

Voyage Investisseurs Bali — Édition Trimestrielle

€4,200

per person · 10 seats

5 days in Bali with 10–12 French investors. **€3,800–€4,500 per person.** Curated programme: 8 vetted property visits, meeting with a French-speaking Indonesian lawyer, property manager roundtable, two developer presentations (vetted, paid sponsor appearances), and — critically — one dinner where everyone shares their real portfolio numbers. You earn the trip fee AND referral commissions when attendees buy. Run quarterly. **One trip per quarter = €38,000–€54,000 in trip fees alone.**

TIER 4 — REFERRAL COMMISSIONS & SOURCING

Developer Referrals + "Done For You" Property Sourcing

3–5%

per transaction

Developer referrals: 3–5% commission when a channel audience member buys through a vetted developer you've introduced. A €200,000 villa = €6,000–€10,000 commission. **Done-For-You sourcing:** For investors who want you to find, vet, and negotiate the property on their behalf — flat fee of €5,000–€8,000 regardless of property value. This scales linearly with channel size. At current trajectory: **10 transactions/year = €60,000–€100,000 in commissions and fees.**

07 — THE INVESTOR TRIP

The highest ROI product in the stack

The investor trip deserves its own section. It is the single highest-converting product because the experience converts browsers into buyers. People who attend investor trips are 5x more likely to purchase a property within 90 days than people who only watch videos.

VOYAGE INVESTISSEURS BALI — PROGRAMME TYPE (5 JOURS)

The Marina Immo Bali Investor Experience

10 French investors · Quarterly · Fully curated · Vetted properties only

DAY 1

Orientation + Legal

Arrival, welcome dinner, French-speaking Indonesian lawyer briefing on PT PMA vs Leasehold. All questions answered.

DAY 2

Uluwatu + Bingin

Visit 3–4 vetted developments. Honest briefings: what the developer claims vs what the property manager says about occupancy.

DAY 3

Pererenan + Seseh

Emerging area properties. Lower entry price, growth potential. Visit completed villas with actual rental data shared.

DAY 4

Numbers Day

Real owner roundtable: 3 investors who bought 2–3 years ago share exact figures — occupancy rates, net income, costs, surprises. Raw truth.

DAY 5

Decision Support

Individual 1:1 sessions for those ready to move. Property shortlisting, offer strategy,

CONTENT

Full DPS Pipeline

The entire trip is filmed and processed through the DPS pipeline. 5 days = 10+

next steps. No pressure — but ready to execute.

YouTube videos + 25 Reels + 1 documentary episode.

Revenue per trip

€42,000

10 seats × €4,200 + 2–3 property referral commissions (€6–10K each)

Quarterly = €168,000/year in trip revenue alone.
Plus €12,000–€30,000 in commissions from purchases.
Total per trip: €50,000–€70,000.

08 — THE DPS SYNERGY

Use your own production pipeline on your own channel

You built the McDonald's Model for your clients. Now deploy it on yourself. Every Marina Immo Dubai video goes through the exact same 35-minute pipeline your team runs for paying clients.

🎙️

Record in the Studio

Use one of your 7 DPS studios for every talking-head video, explainer, and legal walkthrough. The production quality of Marina Immo Dubai will visually outclass every Bali real estate channel on YouTube.

⚡

35-Minute Processing

Every Bali trip video enters the DPS pipeline on return. 4K video assembled in DaVinci, Auphonic audio, Castmagic for show notes and social posts, Opus Clip for Reels. 8 deliverables per episode.

🌐

Bilingual Subtitles

Castmagic generates both French and English transcripts automatically. Add English subtitles to every video. This doubles your potential audience — English-speaking investors find the channel via YouTube search, funnel them to the French community.

📱

5 Reels Per Episode

Opus Clip automatically generates 5 branded vertical clips from each video. Instagram Reels and TikTok feed is fully automated. The @marinaimmodubai Instagram receives 5 new posts from every single YouTube video with zero extra work.

🎯

DPS as a Portfolio Piece

Marina Immo Dubai becomes the best advertisement for DPS's production services. Every B2B client you pitch in Saudi or Dubai will see your own channel — 4K, branded, consistent — and immediately understand what you deliver.

💰

Cost to Produce

Your own pipeline processes your own content at AED 20 per episode (the cost stack you already pay). A €42,000 investor trip generates 10+ episodes at €0.4 production cost each. The economics are absurd in your favour.

09 — 90-DAY LAUNCH PLAN

What happens starting Monday

WEEK 1-2

Relaunch the Channel Identity

→ **Update channel art and description** — new positioning: "L'investisseur honnête — Dubaï · Bali · Vérité des chiffres"

→ **Record the anchor video** (Serie 1: "J'ai quitté Dubaï pour Bali") — shot in DPS studio, full pipeline

→ **Launch the newsletter** on Beehiiv — first issue: "Pourquoi j'ai réduit mon exposition à Dubaï" (Why I reduced my Dubai exposure)

→ **Update @marinaimmodubai Instagram** bio and first 3 Reels from the anchor video

Output: 1 anchor video live, newsletter launched, channel repositioned

WEEK 3-4

The Truth Content Drop

→ **Publish Serie 2, Episode 1:** "Le vrai rendement locatif à Bali" — with actual spreadsheet on screen

→ **Publish Serie 3, Episode 1:** "PT PMA vs Leasehold" explainer — invite a French-speaking Indonesian lawyer as guest

→ **Launch the digital guide (€97)** on Gumroad or Stan Store — link in every video description and bio

→ **Post 3 newsletter issues** driving to the new videos and the guide

Output: 3 videos live, guide selling, newsletter growing

MONTH 2

Trip to Bali — Content Machine

- → **Book a 7-day Bali trip** — developer visits, lawyer meeting, existing investor interviews, area B-roll
- → **Film everything:** 5–7 raw videos processed through DPS pipeline on return
- → **Announce the investor trip** (Tier 3) — open applications for Quarterly Edition 1, 10 seats, €4,200
- → **Launch Club Investisseurs (€99/month)** — founding member rate €69/month for first 50 members
- → **Serie 4:** "Dubaï vs Bali : où investir 200 000€" — publish the cross-market comparison spreadsheet as a downloadable (€47)

Output: 7 Bali videos, investor trip announced, community launched

MONTH 3

First Investor Trip — Sell Out

- → **Fill 10 seats** at €4,200 — promote via YouTube, newsletter, Instagram, personal outreach to past Dubai clients
- → **Execute the trip** — film the entire experience for the Serie 6 diary
- → **Close 2–3 property referrals** from trip attendees = €12,000–€30,000 in commissions
- → **Serie 5:** Developer review series begins — "J'ai visité 10 promoteurs"
- → **Community: 100 members** at €69–99/month = €7,000–€9,900 recurring

Target Month 3: €42,000 trip + €15,000 commissions + €9,000 community + €3,000 digital = €69,000

10 — REVENUE SUMMARY

The honest year-one projection

CONSERVATIVE YEAR 1 REVENUE (MARINA IMMO DUBAI CHANNEL ONLY)

€280,000

Based on 4 investor trips + 150 community members + digital products + developer commissions. Does not include DPS studio revenue.

€168K	€50K	€36K	€24K
4 Investor Trips	Developer Commissions	Club Investisseurs	Digital Products

THE MOST IMPORTANT NUMBER IN THIS DOCUMENT

None of this works without the free tier being excellent. **The quality and honesty of your free content is the only thing that matters.** If your videos are promotional, vague, or avoid the difficult truths about Bali investing, nothing else in this document functions. The entire model runs on one thing: a French-speaking investor trusting you more than any other source. Earn that trust with every video, and the money is a consequence — not a goal.
